Global Internship Programme Plus

CANDIDATE CHECKLIST

Your internship checklist

Considering a UK or USA placement? Tick the items you have ready. Bring one question to Wednesday's webinar.

- [ ] **Choose a field and a skill you want to practise**
  For example, a marketing student might want to analyse a campaign. Write down a project you would enjoy and what you hope to learn.

- [ ] **Choose the routes you want to compare**
  The UK offers six- and twelve-month placements. The USA options are Summer Camp USA, Hospitality USA and the six- to twelve-month internship.

- [ ] **Work out when you can go**
  Note your earliest start date and how long you can stay. If you need academic credit, ask your department about dates and assessment requirements.

- [ ] **Get your CV and study details together**
  Update your CV with one example from coursework, work or volunteering. Have your course title, study or graduation dates, and a possible referee to hand.

- [ ] **Decide what would work financially**
  Would you consider a paid placement, an unpaid one, or either? Estimate programme fees, travel, visa costs, insurance, rent and everyday expenses.

- [ ] **Check your passport and next steps**
  Note the passport you plan to apply with and its expiry date. List anything you need to arrange before you could accept a placement.

One question I want to ask
